

**Tests for TDM's** will require three (3) essential pieces of patient information for claims to be processed:

1. The patient's underlying condition for which medication is being prescribed;
2. An indication of "TDM" or "drug monitoring" (*we cannot assume this based on the test ordered*); and,
3. The drug class the patient is being treated with and monitored.

**Examples:**

Test Order Scenario	Please Indicate	Insufficient
CBC to monitor clozaril therapy, schizoaffective patient	<ul style="list-style-type: none"> <li>• Schizoaffective"</li> <li>• "TDM"</li> <li>• "clozaril"</li> </ul>	"Clozaril therapy"
Hepatic Function Panel to monitor effect of statin therapy	<ul style="list-style-type: none"> <li>• "Hyperlipidemia"</li> <li>• "TDM"</li> <li>• "Statins"</li> </ul>	"Statin therapy"
<b>Opiates</b> for patient with chronic pain	<ul style="list-style-type: none"> <li>• "chronic pain"</li> <li>• "TDM"</li> <li>• "Percocet", etc.</li> </ul>	"High risk meds"

**Urinalysis and Urine Culture**

Since most urinalyses and urine cultures are ordered to evaluate patient symptoms of UTI, in these instances please indicate on test requisitions the patient signs and symptoms, such as "urinary frequency", "urinary pain", "back pain", etc. Indications of "UTI" should be used only when ordering a "test of cure", which requires that the provider identify the species of urinary pathogen identified from a recent urine culture.

**Examples:**

Test Order Scenario	Please Indicate	Insufficient
UA-REFLEX for patient reporting urinary frequency	"Urinary frequency"	"UTI"
Urine culture, previous result positive for <i>P. mirabilis</i>	"UTI: Proteus"	"Test of cure"

The following are common ICD-9 codes used for laboratory orders, the ICD-10 translation and documentation notes.

ICD-9 Code and Description	ICD-10 Code and Description with Documentation Notes
<b>V70.0</b> - Routine General Medical Examination At A Health Care Facility	<b>Z00.00</b> – Encounter for general adult medical examination without abnormal findings, <u>or</u> , <b>Z00.01</b> - Encounter for general adult medical examination with abnormal findings <b>Required chart documentation::</b> <b>Exam For:</b> Adult, Routine Child, Potential Donor or Organ and Tissue, Period of Delayed Growth in Childhood <b>Findings</b> (for Adult, Routine Child, Period of delayed growth): With Abnormal Findings, Without Abnormal Findings
<b>250.00</b> - Diabetes Mellitus Without Mention Of Complication, Type Ii Or Unspecified Type, Not Stated As Uncontrolled	<b>E10.9</b> - Type 1 diabetes mellitus without complications, <u>or</u> , <b>E11.9</b> - Type 2 diabetes mellitus without complications, <u>or</u> , <b>E13.9</b> - Other specified diabetes without complications <b>Required chart documentation:</b> <b>Type:</b> Type 1, Type 2, other specified

## Lab Order Reference and Documentation Tips

ICD-9 Code and Description	ICD-10 Code and Description with Documentation Notes
<b>401.9</b> - Unspecified Essential Hypertension	<b>I10</b> - Essential (primary) hypertension <b>Required chart documentaion:</b> <b>Identify</b> tobacco use smoke exposure and tobacco use/dependence. <b>Type:</b> Essential (primary), Secondary or post procedural <b>Secondary Hypertension Distinctions:</b> Identify if renovascular, secondary to other renal disorders, secondary to endocrine disorders, other
<b>427.31</b> – Atrial Fibrillation	<b>I48.0</b> - Paroxysmal atrial fibrillation, <u>or</u> , <b>I48.1</b> - Persistent atrial fibrillation, <u>or</u> , <b>I48.2</b> - Chronic atrial fibrillation, <u>or</u> , <b>I48.9</b> - Unspecified atrial fibrillation <b>Required chart documentation:</b> <b>Type:</b> Identify whether Paroxysmal, Persistent, Chronic, Unspecified
<b>272.4</b> - Other And Unspecified Hyperlipidemia	<b>E78.4</b> - Other Hyperlipidemia <b>No Documentation changes in ICD-10</b>
<b>V76.51</b> - Screening For Malignant Neoplasms Of Colon	<b>Z12.11</b> - Encounter for screening for malignant neoplasm of colon <b>No Documentation changes in ICD-10</b>
<b>V72.62</b> - Laboratory Examination Ordered As Part Of A Routine General Medical Examination	<b>Z00.00</b> - Encounter for general adult medical examination without abnormal findings <b>Required chart documentation:</b> <b>Exam For:</b> Adult, Routine Child, Potential Donor or Organ and Tissue, Period of Delayed Growth in Childhood <b>Findings</b> (for Adult, Routine Child, Period of delayed growth): <b>With Abnormal Findings, Without Abnormal Findings</b>
<b>V72.84</b> - Preoperative Examination, Unspecified	<b>Z01.812</b> - Encounter for preprocedural laboratory examination, <u>or</u> , <b>Z01.818</b> - Encounter for other preprocedural examination <b>Required chart documentation:</b> <b>Exam Type:</b> Cardiovascular, Respiratory, Laboratory, Other
<b>174.9</b> - Malignant Neoplasm Of Breast (Female), Unspecified	<b>C50.911</b> - Malignant neoplasm of unspecified site of right female breast, <u>or</u> , <b>C50.912</b> - Malignant neoplasm of unspecified site of left female breast, <u>or</u> , <b>C50.919</b> - Malignant neoplasm of unspecified site of unspecified female breast <b>Required chart documentation:</b> <b>Location (laterality):</b> Nipple and areola, Central Portion, Upper-inner quadrant, Lower-inner quadrant, Upper-outer quadrant, Lower-outer quadrant, Axillary tail
<b>285.9</b> – Anemia, unspecified	<b>D64.9</b> – Anemia, Unspecified <b>Required chart documentation:</b> <b>Type:</b> <b>Please</b> specify the type of anemia
<b>780.79</b> - Other Malaise And Fatigue	<b>R53.81</b> – Malaise <b>R53.83</b> – Fatigue, NOS <b>Required chart documentation:</b> <b>Type:</b> Neoplastic (malignant) related fatigue, Functional Quadriplegia, Other Malaise, Chronic Fatigue, Postviral fatigue syndrome, Other fatigue
<b>780.2</b> - Syncope	<b>R55</b> – Syncope and collapse <b>No Documentation changes in ICD-10</b>

ICD-9 Code and Description	ICD-10 Code and Description with Documentation Notes
<b>401.1</b> - Benign Essential Hypertension	<b>I10</b> - Essential (primary) hypertension <b>Required chart documentation:</b> <b>Documentaion:</b> <b>Identify</b> tobacco use smoke exposure and tobacco use/dependence. <b>Type:</b> Essential (primary), Secondary or post procedural <b>Secondary Hypertension Distinctions:</b> Identify if renovascular, secondary to other renal disorders, secondary to endocrine disorders, other
<b>272.4</b> - Hyperlipidemia	<b>E78.5</b> – Hyperlipidemia, unspecified <b>No Documentation changes in ICD-10</b>
<b>453.4</b> - Acute Venous Embolism And Thrombosis Of Unspecified Deep Vessels Of Lower Extremity	<b>I82.401</b> - Acute embolism and thrombosis of unspecified deep veins of right lower extremity, <u>or</u> , <b>I82.402</b> - Acute embolism and thrombosis of unspecified deep veins of left lower extremity, <u>or</u> , <b>I82.409</b> - Acute embolism and thrombosis of unspecified deep veins of unspecified lower extremity <b>Required chart documentation:</b> <b>Vein:</b> Femoral vein, Iliac vein, Popliteal vein, Tibial vein, Other <b>Laterality</b> Please specify if complicating abortion, ectopic pregnancy, obstetric surgery or childbirth
<b>V72.83</b> - Other Specified Preoperative Examination	<b>Z01.818</b> - Encounter for other preprocedural examination <b>Required chart documentation:</b> <b>Exam Type:</b> Cardiovascular, Respiratory, Laboratory, Other
<b>415.19</b> - Other Pulmonary Embolism And Infarction	<b>I26.99</b> - Other pulmonary embolism without acute cor pulmonale <b>Required chart documentation:</b> <b>Type:</b> Acute, Chronic <b>Acute:</b> Document with or without cor pulmonale and whether Septic, Saddle embolus of pulmonary artery, Other
<b>V58.61</b> - Long-Term (Current) Use Of Anticoagulants	<b>Z79.01</b> - Long term (current) use of anticoagulants <b>No Documentation changes in ICD-10</b>
<b>244.9</b> - Unspecified Hypothyroidism	<b>E03.9</b> - <b>Unspecified</b> hypothyroidism <b>Required chart documentation:</b> <b>Cause:</b> Postprocedural Hypothyroidism, Hypothyroidism due to medicaments and other exogenous substances, Other Iodine-deficiency related thyroid disorders and allied conditions, Subclinical iodine-deficiency hypothyroidism, Postinfectious hypothyroidism, Other specified hypothyroidism
<b>250.02</b> - Diabetes Mellitus Without Mention Of Complication, Type Ii Or Unspecified Type, Uncontrolled	<b>E11.65</b> - Type 2 diabetes mellitus with hyperglycemia <b>Required chart documentation:</b> <b>Type:</b> Type 1, Type 2, Other specified <b>Control Type:</b> Specify control of Diabetes
<b>V58.69</b> - Long-Term (Current) Use Of Other Medications	<b>Z79.899</b> - Other long term (current) drug therapy <b>Required chart documentation:</b> <b>Medication:</b> Hormonal contraceptives, opiate analgesic or other drug therapy
<b>V77.91</b> - Screening For Lipoid Disorders	<b>Z13.220</b> - Encounter for screening for lipid disorders <b>No Documentation changes in ICD-10</b>

## Lab Order Reference and Documentation Tips

ICD-9 Code and Description	ICD-10 Code and Description with Documentation Notes
<b>414.01</b> - Coronary Atherosclerosis Of Native Coronary Artery	<b>I25.10</b> - Atherosclerotic heart disease of native coronary artery without angina pectoris <b>Required chart documentation:</b> <b>Type of artery:</b> Native, autologous vein graft, autologous artery graft, nonautologous biological bypass graft, Other type of bypass graft, native coronary artery of transplanted heart, bypass graft of coronary artery of transplanted heart, other coronary artery bypass graft <b>Angina Pectoris:</b> If present, identify if angina is unstable, with documented spasm, other form or angina pectoris or unspecified <b>Specify</b> if due to calcified lesion or lipid rich plaque. <b>Identify</b> tobacco smoke exposure and tobacco use/dependence.
<b>217</b> - Benign Neoplasm Of Breast	<b>D24.1</b> - Benign neoplasm of right breast, <u>or</u> , <b>D24.2</b> - Benign neoplasm of left breast, <u>or</u> , <b>D24.9</b> - Benign neoplasm of unspecified breast <b>Required chart documentation:</b> <b>Laterality of neoplasm</b>
<b>626.2</b> - Excessive Or Frequent Menstruation	<b>N92.0</b> - Excessive and frequent menstruation with regular cycle <b>Required chart documentation:</b> <b>Cycle Type:</b> With Regular cycle or with irregular cycle
